

French Poles

French Poles

Hunter & Hyland French Poles are fantastically opulent in their exquisite simplicity. Designed to offer a finial free style with 90 degree returns to the wall and brackets that insert into the pole, you can achieve a minimalist, modern window with the warmth and style of beautiful curtains.

They are available in 20mm and 28mm diameters, with a variety of ring options to suit your requirements from silently gliding rings with inserts to passing "C" rings for longer length 28mm poles. There are hundreds of finish options to suit your scheme - all of our brass finishes can be used alongside painting the pole to any colour.

FINISHES

Hunter & Hyland French Poles can be finished in any of our twelve beautiful, bespoke brass finishes or they can be painted in any colour to complement your design scheme. The poles can also be painted black to create a robust wrought iron style pole.

FRENCH POLES

BRACKETS

END BRACKET

- The pole slots perfectly over the end bracket and fastens with a simple, discreet screw to maintain the super-smooth lines of the system.

CENTRE BRACKET

- A centre bracket is recommended for any pole over 210cm for a 20mm pole and 220cm for a 28mm pole. You can use more than one centre bracket with "C" passing rings on 28mm poles to allow for longer length poles or for heavier weight curtains.

| Code | Description | Backplate dimensions |
|-------------|-------------|----------------------|
| 4720 | End bracket | 30mm x 114mm |
| 4728 | End bracket | 30mm x 114mm |

| Code | Description | Backplate dimensions | Minimum projection | Maximum projection |
|-------------|----------------|----------------------|--------------------|--------------------|
| 7420 | Centre bracket | 114mm x 30mm | 100mm | 140mm |
| 7428 | Centre bracket | 114mm x 30mm | 145mm | 170mm |

RINGS

There are five ring options to choose from for both pole diameters.

SOLID BRASS RING WITHOUT PLASTIC INSERT

Available for 20mm poles only.

HOLLOW BRASS RING

WROUGHT IRON RING

SOLID BRASS RING WITH PLASTIC INSERT

The solid brass rings contain a nylon insert which creates a virtually silent gliding curtain. Available for 28mm poles only.

"C" BRASS PASSING RING

Our "C" rings allow you to use more than one centre bracket as they glide over the brackets seamlessly. Available for 28mm poles only.

RINGS FOR 20MM POLES

| Code | Description | Inside diameter | External diameter | Thickness |
|-----------------|---|-----------------|-------------------|-----------|
| 125320 | Solid brass ring without plastic insert | 27mm | 36mm | 4mm |
| 221032 | Hollow brass curtain ring | 32mm | 48mm | 8mm |
| 20RINGBK | Wrought iron curtain ring | 30mm | 40mm | 6mm |

RINGS FOR 28MM POLES

| Code | Description | Inside diameter | External diameter | Thickness |
|-----------------|--------------------------------------|-----------------|-------------------|-------------------------------|
| 125630 | Solid brass ring with plastic insert | 39mm | 41mm | 5mm |
| 221038 | Hollow brass curtain ring | 38mm | 54mm | 8mm |
| 126128 | "C" Brass passing ring | 39mm | 51mm | Available for 28mm poles only |
| 30RINGBK | Wrought iron curtain ring | 45mm | 60mm | 8mm |
